

KNP Health & Nature Working Group

Action Plan 2016-2017

This plan has been developed as a draft for discussion and has been based on recommendations identified through:

- The [‘Using the Natural Environment to Deliver Better Health’](#) report published in 2014 by the KNP
- The KCC Sustainability Appraisal of the KCC JSNA and subsequent discussions through the KCC JSNA Sustainability Group
- Activities identified through the Health and Nature Working Group.
- PHOF indicator 1.16 – Utilisation of outdoor spaces for exercise/health reasons
- Stakeholder workshop 9th July (Public Health and Environmental contacts)

As stated in the Terms of Reference, the group’s role is to:

- 1- Advise and make recommendations to the KNP Board in matters relating to the health & wellbeing provided by the natural environment in Kent and Medway
- 2- Facilitate collaboration and join up partners agendas and actions
- 3- Promote and encourage best practice across the county and advocating more vibrant and healthy communities
- 4- Set clear and measurable targets for improvement of the health & wellbeing services provided by the natural environment. Work towards including these targets in relevant policies and strategies
- 5- Provide health & wellbeing advice to all the other KNP subgroups
